SUMMARY

Mobile Software Engineer with 3+ years of experience building scalable Flutter applications and FinTech platforms across Android and iOS. Currently working as an SDE-1 at Jai Kisan, developing Flutter-based mobile solutions and contributing to backend services for onboarding, payments, KYC, and loan lifecycle management. Experienced in building production-grade systems with clean architecture, API integrations, and high-performance mobile applications.

EXPERIENCE

Jai Kisan | Bangalore, India
Software Development Engineer - 1 | 03/2025 - Present
Tech Stack: Flutter, Dart, Firebase, REST APIs, Razorpay, AWS S3

Product: BharatKhata Mobile Application (FinTech)

- Developed and scaled a **production-grade Flutter mobile application** for retailers, enabling access to BNPL, Invoice Financing, and AR Loan products across Android and iOS.
- Architected a **config-driven onboarding system** supporting multiple financial products with backend-controlled stage navigation and dynamic workflow management.
- Implemented **end-to-end KYC and onboarding flows** including PAN verification, Aadhaar e-KYC, GST validation, bank verification, CRIF credit checks, face liveness detection, and document uploads.
- Built **post-sanction financial workflows** including sanction letters, eNACH mandates, digital agreement signing, and loan activation using Digio and Razorpay integrations.
- Designed and implemented **transaction and repayment modules** with real-time loan status tracking, credit limit management, payment history, and multi-mode payment support.
- Contributed to backend services using **Python and Node.js**, developing REST APIs, validation layers, and integrations supporting onboarding and repayment workflows.
- Integrated **50+ REST APIs and 15+ third-party SDKs** including Firebase, Razorpay, HyperSnap, Digio, Sentry, Mixpanel, MoEngage, and AWS S3 with robust error handling and retry strategies.

Rubixe-AI | Bangalore, India
Software Developer (Flutter) | 08/2023 - 03/2025
Products: Datamites / Skillfloor / Skillogic (EdTech)

- Independently developed and maintained multiple **cross-platform Flutter applications** across EdTech, ERP, and Visitor Management systems.
- Built and scaled EdTech mobile applications **Datamites, Skillfloor, and Skillogic**, supporting **20K+ downloads across Android and iOS**.
- Implemented **LMS functionalities** including course access, video streaming, learning progress tracking, and secure user authentication.
- Designed responsive and intuitive mobile interfaces using Flutter, improving **overall user engagement and usability**.
- Integrated REST APIs and optimized application data handling to improve **performance, reliability, and maintainability**.
- Collaborated with product, backend, and design teams in **Agile environments** to deliver new features and maintain product stability.

Merino Consulting Services | Delhi, India
Summer Intern | 07/2022 - 08/2022

- Gained hands-on exposure to responsive design principles using JS and enhanced UI consistency across web projects.
- Collaborated with teams to meet project deadlines while improving app performance and reducing load times by 15%.

The Sparks Foundation
Web Development & Designing Intern | 08/2021 - 09/2021

- Developed two full-stack apps - a Banking System and Payment Gateway using **PHP, JavaScript, HTML, and CSS**.
- Integrated REST APIs and participated in backend logic and data validation, improving app robustness.

TECHNICAL SKILLS

- **Mobile Development:** Flutter, Dart, Android, iOS
- **Backend Development:** Python, Node.js, FastAPI, Flask, Django, REST APIs, JWT Authentication
- **Databases:** Firebase (Firestore, RTDB), MySQL, MongoDB
- **Architecture & Concepts:** Clean Architecture, MVC, MVVM, Provider, Riverpod, OOP, Data Structures, Algorithms
- **Tools & Platforms:** Git, Postman, AWS S3, CI/CD, Android Studio, Xcode, VS Code, PyCharm
- **Integrations:** Payment Gateways, KYC APIs, Firebase Services
- **Languages**: Java, Kotlin, Swift

EDUCATION

Hemvati Nandan Bahuguna Garhwal University, | Srinagar, Uttarakhand
B.Tech-Computer Science and Engineering | 08/2023
CGPA: 8.04/10.0

ACHIEVEMENTS

- **Winner – JK Internal AI Hackathon 2025**, Jai Kisan
  Awarded **Best Overall Prototype** for building an **Early Warning System**, a generative AI-powered solution to detect potential financial risk signals in advance.
- **Top 10 Percentile** – Summer Analytics'24, IIT Guwahati
- **AIR 102** – CodeKaze'23, Coding Ninjas
- **AIR 74** – CIT, Internship Studio
- **TCS NQT Qualified** – 2023
- **Finalist (Top 12)** – Tally CodeBrewers 2022 | Commander of Full Stack
